Office Action Summary, dated 06/09/2006

My phone call on July 20 to discuss my proposals, listed in my facsimile of July 12

Dear Mr McCreary,

2006-07-26

In compliance with your consent on my proposals I submit

1. a complete set of Figures; and
2. an amended application, in which I completed the amendments according to the Chapters b2) and c) of my facsimile.

In addition a marked-up application is included, although it is not necessary because the previous claims are replete of errors. The examiner of CIPO has granted patent on that, but the other one, being more critical, demanded for amendments, but giving me assistance on how to amend them. Compare CA 2,257,079 with the latest document CA 2,447,580.

I would appreciate you if you would scrutinize the amended claims and discover errors, if still existing. This is only the method to learn how to formulate US Claims.

I've already rewritten the Abstract in order to lower the number of the words from 213 to 145.

Thank you in advance.

Kind regards

*Sp. Gruschke*
